WE WILL BE EXECUTING AN ARREST USING FORCE!
CURREN HUCKEBEIN AND YOUR TWO ASSOCIATES.
Well, thanks again for taking your jobs seriously

I did say I don't like going on a fool's errand, but we're clearly at a disadvantage here.
Get back, Sonica.
YOU BETTER PROTECT ME! I'M THE WEAK LINK HERE!
And the blue one over there should be the hand to hand fighter that destroyed Vey's Divider.
Between blondie and the redhead, you could call them Special Section Six's fastest combination on air and land.

If we look up, we're penned in by gunfire.
And the Zero's group is bringing up the rear.
Every single one of them decked out in the newest anti-EC weapons money can buy.

What're we gonna do? Even for you guys, going head on with them is gonna be pretty rough, won't it?
No need to worry
I haven't shown off as the head of the family, after all.

...Hm!?

Thunder
Rage W!

TCH !
!!
ウッ!!
ウォォォ!!

Revolver
Break!

Ooh~. My, my.
CURREN! VEY!

FIRING INJECTION BULLET!
OW!

An anaesthesia bullet...!? No, this is...
!?
The results of the Special Sector's medical unit's research, is it?
The antibody regeneration is slow... An anti-EC drug?
This is actually pretty effective.
And those electric and physical attacks scored effective hits on infected as well. So they came with those kinds of trump cards prepared

All proof of how familiar they are with the Eclipse now... Most impressive.
YOU GOT IT!!
FATE, THOSE WOUNDS...!?
WENDY!
HER COUNTERATTACK GOT THROUGH... BUT IT'S NOT A PROBLEM

..IT CAN'T BE HELPED. SIS, WE SHOULD RETREAT.
VEY!?
I AGREE! IT'S KIND OF IMPORTANT TO BE ALIVE AND FREE TO DO BUSINESS!

Are they discussing escape...?
All right.
Mach Caliber! Motion sensor at maximum!

We don't have a one sided advantage against these guys anymore
And we shouldn't be fighting while dragging her around anyway
Yeah, since Sonica's here.
WELL EXCUSE ME! YOU PLANNING TO MAKE ME COMPENSATE YOU FOR THAT!?
There's no one that could take your place. You're an important card, you know? We can't have you getting hurt.
...Fine then.

And there's one more thing to worry about.
It'll be really bad if we let Thoma come into contact with that man.
It'll be really troublesome if he gets a hold of the Zero's secret and power and manages to copy it.
...Can't be helped, huh? Guess I'll really have to go all out for a bit

It's Harlaown
Enforcer... Um, what was your name again?
Miss Har, I'll give you some advice.
We aren't really the dangerous ones here, it's that guy over there. Make sure you keep a tight grip on him.
Again with such cruel words!
Well maybe calling it "advice" gives it too much weight?

A request
From little
Miss Curren.
This is a
"request."

She transformed!? A body modification!?
I'm not familiar with this...!
Whoops.

Plasma
Drive!

SONICA! I'M GONNA BE FLASHY, BUT VEY'LL PROTECT YOU! JUST SIT STILL!
KUH...!
Not giving me much room to argue, are you!?

THAT'S...!

...Cinderella.

KUH...!
Here we go!
FINE, BUT BE A LITTLE GENTLER!
VEY!

For them to bring along one of the ominous birds without this ridiculous power.
Obscuring everyone's vision is quite handy for me.
Truly, you are a fascinating existance.

For the sudden visit and the mountain of impertinence,
allow me to take the price from your body.

VE...

You are such a hindrance.
Do disappear.

...Get away, Sonica.
...Hey...
CARO, WENDY, TRACK THEM!
ROGER!

Ah~... I'm beat!
All I wanted to do was avoid working for free...
Vey, Sonica, you guys get away okay?
WE'RE NOT OKAY AT ALL! VEY'S IN BAD SHAPE!
WHAT DO WE DO...!? VEY WILL DIE AT THIS RATE!
HE TOOK HIS HEART! AND HE'S NOT BREATHING!
